Customer Journey Map

Date: 05 October 2026 | Team ID: UNM-293 2026-2430 | Maximum Marks: 2 Marks

Project Name: FitBuddy – AI Fitness Plan Generator using Gemini Models | **Team Member:** Kaviya Sree.T

Customer Journey	***Stage 1 Discover & Sign Up***	***Stage 2 Enter Fitness Needs***	***Stage 3 Receive & Follow Plan***
Actions What does the customer do?	• Opens FitBuddy • Learns about AI fitness planning • Creates/signs into an account	• Enters fitness goal • Provides basic preferences and available time • Submits details to generate a plan	• Reviews the generated plan • Follows suggested activities • Tracks progress and returns for updates
Touchpoint What part of the service do they interact with?	• FitBuddy home page • Registration/login screen • Project introduction	• User input form • Goal and preference fields • Gemini-powered plan generation	• Personalized fitness-plan screen • Progress/tracking section • Update/regenerate option
Customer Thought What is the customer thinking?	“I want an easy way to start a fitness routine.” “Is this simple to use?”	“Will the plan match my goals and routine?” “I want useful recommendations.”	“This plan is easy to understand.” “I can use my progress to improve my routine.”
Customer Feeling What is the customer feeling?	Curious and hopeful	Interested and confident	Motivated and satisfied
Process Ownership Who is in the lead on this?	Kaviya Sree.T – user-flow and onboarding coordination	Kaviya Sree.T – input design and Gemini integration coordination	Kaviya Sree.T – plan presentation, feedback and improvement coordination
Opportunities How can we improve this stage?	• Make onboarding simple • Clearly explain FitBuddy benefits • Use an easy navigation flow	• Keep questions short and clear • Validate inputs • Improve prompt quality for relevant plans	• Add progress feedback • Allow plan updates • Collect user feedback for future improvements

Prepared according to the uploaded Customer Journey Map template. The journey is tailored to the FitBuddy project and the requested member name.
