Customer Problem Statement

Create a problem statement to understand the customer's point of view and clearly identify the challenge that FitBuddy aims to solve.

Problem Statement (PS)	**FitBuddy – AI Fitness Plan Generator**
I am (Customer)	A beginner or fitness-conscious person who wants guidance for starting or improving a fitness routi
I'm trying to	Create a personalized fitness plan that matches my goals, available time, fitness level, and preferer
But	It can be difficult to know which exercises, workout schedule, and progression plan are suitable for
Because	Generic fitness plans may not consider individual goals and preferences, and professional guidance
Which makes me feel	Confused and unsure about choosing the right exercises and maintaining a consistent fitness routin

Proposed Direction: FitBuddy uses Gemini Models to generate a personalized fitness plan based on the user's inputs, helping make fitness planning easier, clearer, and more structured.
